Dent Rewind Ltd was established following sixteen years of experience in the motor trade.

Paul Langridge, founder of Dent Rewind Ltd, spent ten years working in a body shop and in 2000 he trained in PDR (Paintless Dent Removal). Following this, Paul established Panel Perfect and served local garages and dealerships in the area, in PDR for 6 years.

Paul has now launched 'Dent Rewind Ltd' to bring to the private customer the same deals as the trade industry have benefited from.

What is Paintless Dent Removal?

Paintless Dent Removal (PDR) is the unique art of removing small dents from cars without the need for costly and time consuming paintwork. A series of bars and rods are used to massage out dents from behind the panel.

As long as the paint is not damaged, we should be able to help. PDR restores your car back to its original factory finish avoiding paint colour mismatches. PDR uses no chemicals or paint and so does its bit for the environment.
